2. THEMATIC CORE (Conceptual Message)

- **Primary Theme:** Cosmic romantic union; two souls sheltered together in their own protected world
- **Secondary Themes:**

    - Duality and harmony (pink/blue, masculine/feminine, complementary forces)
    - Love as sanctuary and home
    - Partnership as spiritual journey through the cosmos
    - Otherworldly, magical love that transcends ordinary reality
    - Slow, intentional deepening of connection (snail symbolism)
    - Carrying each other; being each other's shelter
- **Narrative:** Two beings—elven, mystical, or cosmic in nature—embrace within a protective shell as they journey through the universe together. The snail represents their shared home, the slow and sacred pace of deep love, and the idea that they carry their sanctuary with them wherever they go. The elaborate mandala base suggests their union is ritualistic, blessed, and grounded in sacred geometry. The starry void emphasizes that their love exists in its own universe—intimate, enclosed, yet part of something infinite. The title "Elven Love" suggests this is a magical, enchanted, timeless form of partnership.
